

Update for September Renewals as of November 17, 2022

Please note this is a sample of the communication that will be e-mailed to all congregations in the UCC Protect Plan, which renewed in September 2022.

Please find attached an invoice and the September 3-month extension documentation (September 1, 2022, to December 1, 2022). Kindly review documentation to assure it meets your requirements. This extension is subject to a 15% program premium rate increase along with a property inflation value adjustment (5% buildings and 2% on all other contents). No action on your part is required at this time, and we confirm coverage is bound.

Please note, as provided in previous communication, this 3-month extension will not continue on direct monthly billing. Accordingly, we have attached the invoice to be paid in full to confirm coverage for the attached extension.

December 1, 2022–23 renewal documentation will follow in a separate e-mail communication very shortly, which includes the program structural and meaningful cost savings as profiled through United Church of Canada national office.

Thank you, and we appreciate your patience in this matter.
